SKILLS

- Languages & Frameworks:
Python, JavaScript, Java,
React, Django, Streamlit
- Data Science & ML: Pandas,
NumPy, Scikit-learn,
TensorFlow, Keras
- Systems & Networking:
Windows/Linux setup,
LAN/Wi-Fi config, backups,
troubleshooting
- Basic Cyber security and IT
support expert

SOFTSKILLS

- Problem-solving
- Teamwork
- Fast learner
- Clear communication

PERSONAL PROJECTS

- Movie Recommender –
Hybrid system using Python,
Streamlit & TMDB API.
- Appointment App – Django
app for hospital bookings &
admin control.
- ML Models – Built phone
usage & crypto prediction
models with TensorFlow.

PROFILE

Computer Science graduate with hands-on experience in IT support, system setup, and data-driven solutions. Skilled in troubleshooting, basic networking, and building applications using Python, Django, and ML tools.

WORK EXPERIENCE

Bungoma County Refferal Hospital SEPT=DEC 2023

ICT-attachee

- Improved service efficiency by digitizing hospital records and appointment workflows
